PROFESSIONAL SUMMARY

Senior Software Engineer with 14+ years of experience, mostly in JavaScript/TypeScript based projects. Focusing on front-end development, but with backend knowledge and experience in small and big projects, including legacy systems. I know Linux environments well, having used GNU/Linux exclusively for over 20 years.

TECHNICAL SKILLS

- **Core Expertise:** TypeScript, JavaScript (ES6+), React, React Native, Next.js, Redux, Zustand
- **Architecture & AI-Driven Engineering:** AI-assisted systems architecture orchestration, advanced systems modeling (Open Design), AI agent environment provisioning (Claude Code, Agent-Shell), MCP tool integration. AI/ML Engineering: Python, PyTorch, production LLM integration, data analysis (Pandas, NumPy).
- **Web Architecture & Solutions:** WebSockets, Server-Sent Events, Service Workers (creator of the Wayne framework), GraphQL, REST, JSON-RPC, JWT, Templating Languages (Liquid, Mustache, Twig), Web Components, accessibility WCAG (A11Y), Node.js, SQL
- **DevOps & Tools:** Docker, Kubernetes, GNU/Linux, Git Internals, CI/CD Pipelines (GitHub Actions, Azure DevOps), GNU Emacs, GitHub, GitLab, BitBucket, Jira
- **Testing:** Jasmine, Jest, Vitest, Cypress, Puppeteer, Playwright

AUTHORSHIPS & TECHNICAL PUBLICATIONS

- **Głównie JavaScript:** Founder and lead author of jcubic.pl – a long-standing technical blog focused on core JavaScript internals, modern APIs, and deep-dives into the web ecosystem.
- **Personal Technical Blog:** Publisher of comprehensive, long-form software engineering articles available at jakub.jankiewicz.org/blog.
- **WikiZEIT Project:** Founder of the educational initiative wikizeit.edu.pl, exploring synergies between advanced Wikipedia structures, content curation, and ethical SEO methodologies.
- **FreeCodeCamp News:** Author of vetted, highly technical software engineering guides for the official peer-reviewed global [FreeCodeCamp](https://www.freecodecamp.org) community.

RECOGNIZED OPEN SOURCE & COMMUNITY IMPACT

- **Open Source Initiative (OSI) Profiled Maintainer:** Featured in the global [OSI Maintainer Spotlight](#) for long-standing contributions and stewardship in the global Free and Open Source Software (FOSS) ecosystem.
- **Isomorphic-git:** Active core maintainer of the pure-JavaScript implementation of Git used in enterprise browser and Node.js environments. Managing architecture, security patches, and community code reviews.
- **jQuery Terminal:** Creator and maintainer of the industry-standard framework for web-based CLI applications. Active for over a decade with massive global developer adoption.
- **Technical Author & Educator:** Author of vetted, high-traffic educational software engineering articles for major platforms including [FreeCodeCamp](#) and [ITNext](#).
- **Developer Community Leadership & Moderation:** Founder and administrator of the “Open Source Developer Lodge” community on Discord and the “Open Source Contributors” hub on X (Twitter). Active moderator for top-tier global technical communities “Software Engineering” and “Web Developers” on X, managing content curation, technical discourse standards, and developer engagement.
- **Wikimedia Polska:** Certified Wiki-Trainer and Newcomer Mentor. Designing and conducting engineering workshops on copyright law, open-source compliance, and community onboarding.

- **WOŚP Charity Initiative:** Designed and conducted an open-source technical training curriculum focused on Creative Coding with the p5.js library to support the Great Orchestra of Christmas Charity.
- **Independent Mentor & Technical Advisor:** Providing individual 1-1 software engineering mentorship. Designed and executed a multi-month mentorship program, successfully onboarding a developer into advanced browser mechanics (Service Workers) through hands-on contributions to the open-source project **Wayne** (a lightweight router inside a Service Worker with an Express.js-compatible API).

COMMERCIAL EXPERIENCE

Sii Polska | Senior Software Engineer 2025 - 2026

- Architected and implemented enterprise-scale, high-performance React front-end systems.
- Led strategic technical decisions on state management, bundle optimization, and component reusability.

Piwik PRO | Senior JavaScript Developer 2024

- Engineered privacy-focused analytics components using TypeScript and React within containerized Kubernetes ecosystems.
- Optimized local Docker-based developer environments to ensure exact staging and production parity.

Britenet | Senior React Developer 2023

- Developed a high-traffic mobile application for IGT utilizing React Native, Expo, and Zustand for optimized state synchronization.
- Streamlined mobile CI/CD deployment pipelines and performed deep profiling to resolve performance bottlenecks.

ASTEK Polska | Senior Front-End Developer 2015 - 2023

- Led front-end development for large-scale pharmaceutical data visualization applications using Angular, React, and R/Shiny.
- Automated provisioning and cloud infrastructure deployment on OpenStack via Docker and Ansible.

Previous Commercial Experience 2011 - 2015

- JavaScript/Web Developer at XPro (UI development), Levitated (Angular.js/SCRUM), Z500 (UI development & PHP), VocalyTalented (Database ERD & UI development), Aiki Lab (OpenSource framework creation), and Snapzu (UI of social platform).

EDUCATION & COURSES

- **Kielce University of Technology** | B.Eng. in Computer Science (Information Systems)
- **Key Courses & Certifications:**
 - **10xDevs** – Advanced architecture design, development pipeline automation, and AI agent orchestration (Claude Code, MCP).
 - **IT Trainer Course & Train the Trainer** – Methodology for engineering training delivery and technical knowledge transfer.
 - **Mentorship Course** – Effective technical knowledge transfer, 1-1 support techniques, and developer career path routing.
 - **Machine Learning & Deep Learning** (PyTorch/TensorFlow) and Large Language Model (LLM) Control Methods.
